Since this is a natural stone, the actual delivered material may have variations.

Standard format 1220 mm x 610 mm. Larger sizes on request.

Da es sich um ein echtes Naturstein-Produkt handelt, können die Muster variieren.

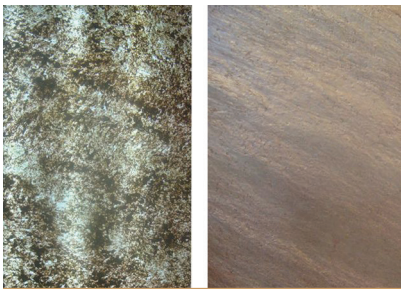

Standardformat 1220 mm x 610 mm. Sondergrößen auf Anfrage.

Translucent Slate-Lite is an extraordinary design product. The incredible translucence of the stone can create an eye catching thrill almost anywhere. The translucent Slate-Lite has all properties of the classic Slate-Lite material and additionally can be backlit.

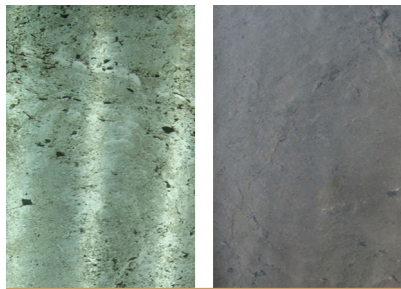

Without light the Translucent Slate-Lite appears as a massive stone panel, but once it is backlit a beautiful warm light shines through the surface.

Transluzenter Leichtschiefer ist das absolute Designelement. Der lichtdurchlässige Stein verwandelt jeden Raum in ein einzigartiges Erlebnis der Sinne. Transluzenter Leichtschiefer hat dieselben Eigenschaften wie das Classic Material, bis auf die Lichtdurchlässigkeit.

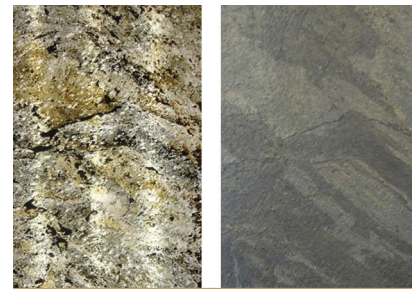

Wird das Leuchtmittel hinter dem Leichtschiefer ausgeschaltet, wirkt er wie gewöhnlicher Schiefer, wird die Lichtquelle eingeschaltet entstehen einzigartige Musterungen.
