Formica® Compact is a high pressure structural laminate, built up from multiple layers of kraft paper, with a decorative face on both sides. Compact is impressively strong and damage resistant and is particularly suited to use in high humidity, high impact areas; making it ideal for interior use on locker doors, washroom cubicles, wall panels or furniture. Formica Compact is certified by the CE Mark to meet or exceed conformity with European consumer safety, health and environmental requirements.

Printed Pattern samples are shown at approximately 1:1 scale, Woods are shown at approximately 1:2 scale. The designs shown have been matched as closely as the printing process will allow. It is recommended that you obtain actual samples prior to the specification or use. For further details on product availability please consult your local Formica Group Sales Representative or formica.com. All items are available in size 3660x1525.

Please note that colour systems and their notations represent the closest colour available in the particular colour system and are provided for guidance only. The designs reproduced in this publication have been matched as closely as the printing process will allow. It is recommended that you obtain actual samples prior to the final specification or use.
